# Sarayu Krishna Nagasarapu

Bengaluru, Karnataka

9550738610 | sarakrish004@gmail.com | LinkedIn | GitHub

## SUMMARY

Motivated and adaptable Computer Science graduate with experience across full-stack development, AI/ML, and data-driven problem solving. Comfortable working independently and in team settings, with strong analytical and communication skills. Detail-oriented and committed to delivering reliable, high-quality work. Eager to contribute to a team where growth and impact are valued.

## EXPERIENCE

**SDE Intern — HashedIn by Deloitte** **Apr 2026 – Aug 2026**

*Bengaluru, Karnataka*

- Built Compass, a cross-platform desktop app for Product Owners, consolidating 8+ product management workflows into a single interface and reducing context switching across tools.
- Cut manual product-management effort by 60% by integrating 10+ MCP (Model Context Protocol) servers, connecting AI assistants directly to enterprise tools.

*Tech Stack: Python, FastAPI, PostgreSQL, ChromaDB, LangGraph, React, TypeScript, Electron, Docker*

## PROJECTS

**Ripple | AI-Powered Instagram Audience Simulation & Content Optimization** **Aug 2026 – Present**

Project Link

- Engineered a multi-agent AI architecture featuring independent persona agents, skill-based tool selection, and a Deep Agents reporting workflow, enabling evidence-grounded audience analysis and automated content recommendations.
- Developed a full-stack AI audience simulation platform analyzing 250 synthetic personas, featuring interactive audience network visualization, automated engagement analysis, resumable AI workflows, and content performance comparison.

*Tech Stack: React, Python, FastAPI, LangGraph, PostgreSQL, Docker*

**FlexiFlow | AI-Powered Personalized Support System for Arthritis Management** **Jan 2026 – Apr 2026**

Project Link

- Delivered adaptive exercise plans with 90% alignment to medical guidelines by engineering a contextual bandit (LinUCB) recommendation engine for arthritis patients.
- Personalized recommendations in real time by processing 500+ exercise data points per user, improving plan relevance over static rule-based alternatives.

*Tech Stack: Flutter, Firebase, FastAPI, Vercel*

## PUBLICATIONS

- Implementing a Multilingual Lexical Analyser for Java, C and C++ — 5th IEEE Global Conference for Advancement in Technology
- Efficient Parking Spot Allocation in a Grid-Based Parking Lot — CompSIF 2025

## ACHIEVEMENTS

- Ranked among the Top 10 teams at Infosys Global Hackathon 2025
- Created a cybersecurity dataset on Kaggle with 3.9K+ views, 700+ downloads, and a usability score of 8.24
- Selected among 500+ applicants for Ziroh Labs' Earn While Learning (EWL) program
- First Prize Winner, Algomania Hackathon (2024)

## EDUCATION

**Amrita Vishwa Vidyapeetham, Bengaluru** **Sept 2022 – May 2026**

*B.Tech in Computer Science and Engineering — CGPA: 8.35/10.00*

**Sri Chaitanya College, Hyderabad** **May 2020 – Jun 2022**

*12th Standard — Percentage: 98.1%*

**Narayana Concept School, Hyderabad** **Jun 2019 – Mar 2020**

*10th Standard — CGPA: 10/10*

## TECHNICAL SKILLS

Languages: Java, Python, SQL

Technologies/Frameworks: React, FastAPI, Beautiful Soup, Selenium, Tableau, Excel, Google Cloud Platform, Git

Databases: MySQL, MongoDB

Platforms: PyCharm, Jupyter Notebook, VS Code, Eclipse, GitHub

Core Skills: Data Science, Machine Learning, Computer Vision, Deep Learning, Prompt Engineering, Data Structures & Algorithms

## CERTIFICATES

- Generative AI — Google
- Data Science Specialization — IBM

## EXTRA-CURRICULARS

- Executive Member, Association of Computing Machinery & Club for Entrepreneurs — organized the flagship "Pitch Your Idea" event with 100+ participants, fostering innovation and entrepreneurial thinking within the club.
